

## WCSC Setting Up 2-Factor Verification With Your New Email Account

1. When you login for the first time, you will see the following screen that will walk you through the steps. Click the blue ENROLL button.

2. In the next step, you will put in your mobile phone number and make sure "Text message" is checked. Choose to continue or click NEXT.

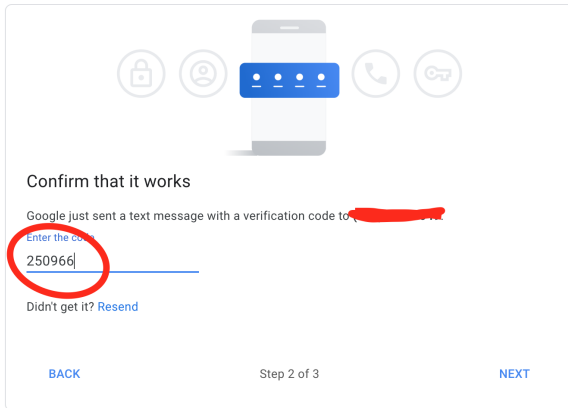

← 2-Step Verification

A screenshot of the "2-Step Verification" setup screen. At the top, there is a navigation bar with icons for a lock, a person, a phone, and a key. The main heading is "Let's set up your phone". Below it, the question "What phone number do you want to use?" is followed by a dropdown menu showing the US flag and a text input field containing "(812) 444-4444". Below this, a note states: "Google will only use this number for account security. Don't use a Google Voice number. Message and data rates may apply." The next question is "How do you want to get codes?", with two radio button options: "Text message" (which is selected) and "Phone call". At the bottom, there is a link "Show more options". The footer indicates "Step 1 of 3".

---

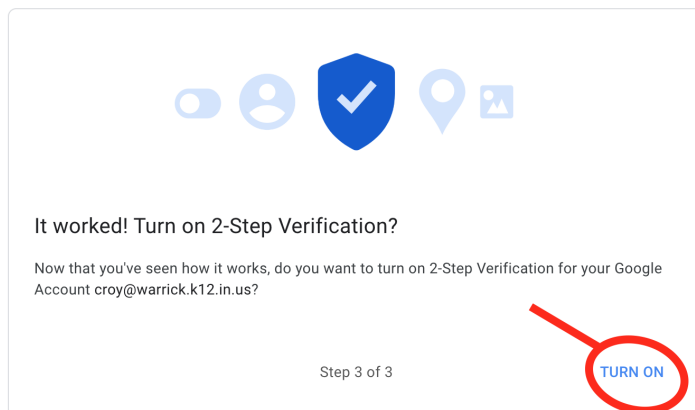

3. In the next step, type in the code that was texted to your mobile phone and choose NEXT.

#### ← 2-Step Verification

4. In the last screen, click the words TURN ON and that is the final step.

#### ← 2-Step Verification

5. Your two factor verification is now set up.
